About the Australian Onion Industry Association Inc

## Onions Australia

Onions Australia is the national industry association for onion growers. Our membership is varied and includes growers, packers, agronomists, researchers, horticulturalists and many related Australian agricultural businesses. We support the work of our members with an advisory committee, quarterly meetings and ongoing research funded in part by a growers levy.

Each membership now includes a free advertisement in the Onions Australia Business Directory (conditions apply). This gives members an opportunity to raise their profile and makes it easier for readers to get in touch with them.

For advertisers, Onions Australia Offers great value. Readers will keep the magazine at hand to use its how-to information and guide to agricultural practice, so a single advertisement will receive exposure again and again throughout the year.

## I/We wish to become a member of Onions Australia

Please circle membership type required (subscription is annually/GST inclusive)

State \$875      Company \$330      Individual      \$122
