

ONIONS ONLINE

Join The Onion Project and onion industry specialists for these interactive and informative webinars

WEBINAR

White rot in onions

White rot is an economically important disease of onion crops which can lay dormant in the soil for decades. Join Dr Jeremiah Dung, Oregon State University, as he discusses the biology and management of the disease as well as recent research in the US.

Also hear from Australian experts on what has been done in Australia.

Wednesday 21 October 2020

12.30pm - 1.30 pm AEDT

Check your time zone and add to your diary
